Fat Comes at Forty

Fat Need Not Come

Stience has found the treason why people grow far. That reason lives largely in a defective gland. To some that trouble comes in early years but to most people after 40.

atter 40
A certain gland which largely controls
autridon, becomes weak. Then food
which should go into fuel and energy
deposits tighel in fat.
No starration, no overwork can deposits itself in fat.

No starvation, no over work can rectify that condition Both are harmful. The right remedy is to activate an under active gland Physicians the world over now employ it.

under active gland Physicians the world over now employ it.

That is the method employed to Marmola prescription tablets. They are based on accentific research on the causer of excess fat. A famous medical laboratory perfected them People have used them for more than 20 years—millions of boxes of them. You can see the results in every circle—in new youth and beauty, new leadth and vitality. Do what your friends are doing Correct the cause of excess fat Don't starre don't over work. Take four Marmola tablets daily and watch the cause for the cause of excess fat Don't work of the four Marmola tablets daily and watch the cause was the starre to the cause of excess fat Don't was the starre to the cause of excess fat Don't was the starre don't over work. Take four Marmola tablets daily and watch the cause.

Do this because this is the scientific

Do it because multitudes of people all about you, have proved its efficiency Do at now Every day of delay means that your life is not being lived at its full I larmola prescript on tablets are sold by all drugg us at \$1 per box it your drugg it is out he will get them at once from his jobber

Out of your bathtub Collins and R xie 1 ue.

After a bath hard water leaves a dark ring. The sorp combines with the hardness and makes sorm. The seum collects dart. The darty ring sticks to the sides of the bathtub. It has to be scrubbed off.

But soften the water with Melo and there isn't my darty ring on your bathtub. Melo makes water delightfully soft and wonderfulcleaner with or without soap. It saves from the water with or without soap. It saves from the water of the water with or without soap.
